Annual Index

Subject Index 2009

A

Abbe, Ernst: "Luminaries," Aug 502
Abbreviated Identification of Bacteria and Yeast; Approved Guideline—Second Edition, April 213
ABO blood group: and coronary artery diseases, Sept 528
Accreditation: and standard protocol for introduction of new testing into clinical laboratory, July 391
Accuracy: repeating critical values in the laboratory for, Aug 453
Activated partial thromboplastin time (APTT): coagulation profile for cryoprecipitate produced from 24-hour stored whole blood, Sept 540; laboratory monitoring of heparin therapy, anti-Xa assay or?, Jan 47; necessity of repeating critical values in the laboratory, Aug 454
Acute coronary syndrome: placental growth factor in patients with non ST-elevation, Nov 675
Adalimumab: response of cartilage oligomeric matrix protein to, in patients with rheumatoid arthritis, Nov 646, 649
ADAMTS13: comparison of two commercial activity assays with reference laboratory method, April 232
Adenocarcinoma: pancreatic ductal, July 417
Adenoma: serous, pancreatic, July 421
Adenovirus: antiadenovirus activities of cinnamaldehyde in vitro, Nov 669
Adrenal vein sampling for aldosterone and cortisol: Excel spreadsheets for creating interpretive reports for, Jan 8
Adrenocorticotropic hormone (ACTH): Excel spreadsheets for creating interpretive reports for bilateral inferior petrosal sinus sampling for, Jan 10
Adsorption: Tiselius' work on, Oct 627
Aggregometry: standardization of platelet function testing by, May 269
Agr specificity groups: among *Staphylococcus aureus* isolates from university hospitals in Tehran, Jan 27
Airway closure: microfluidics, lung surfactant, and respiratory disorders, April 204
Alanine transaminase: correlations of serum hepatitis C virus RNA and, with liver histopathological changes in patients with chronic hepatitis C, March 167; and exercise's effect on tick bite laboratory evaluation in humans, Feb 96
Albumin: "Test Your Knowledge," March 183
Albumin, ischemia-modified: "Test Your Knowledge," Jan 56
Aldosterone: Excel spreadsheets for creating interpretive reports for adrenal vein sampling for cortisol and, Jan 8
Algorithms, medical. *See* Medical algorithms
Alkaline phosphatase: as tumor marker, Feb 99
American Health Lawyers Association, July 429
American Society for Clinical Pathology (ASCP): first woman president, June 377; medical laboratory staffing with certified versus noncertified personnel report, April 197; wage and vacancy survey for 2008, March 133
Analysis and Presentation of Cumulative Antimicrobial Susceptibility Test Data; Approved Guideline—Third Edition, Aug 459
Analytical Performance Characteristics and Clinical Utility of Immunological Assays for Human Immunoglobulin E (IgE) Antibodies and Defined Allergen Specificities; Approved Guideline—Second Edition, July 395
Analytic phase: in "laboratory testing cycle," Feb 105
Anemia: quantitation of autoantibodies in eluate of sensitized red cells in warm autoimmune hemolytic, Sept 531; red cell cytograms generated by ADVIA 120 automated hematology analyzer, Sept 550; "Test Your Knowledge," Feb 117
Angina pectoris: and sCD40, sCD40L, TNF<alpha>, and TNF-RI levels in culprit artery during myocardial infarction, Nov 660
Antibiograms, Aug 459
Antibiotic resistance. *See* Drug resistance
Antibodies, monoclonal. *See* Monoclonal antibodies
Anticoagulants: laboratory monitoring of heparin therapy, partial thromboplastin time or anti-Xa assay, Jan 47; simple tool to educate laboratory staff about anticoagulation, Nov 687
Anti-Cr^a, Oct 593
Anti-dsDNA antibody: in systemic lupus erythematosus, July 411
Antifibrinolytic agents: in von Willebrand disease treatment, May 273
Antimicrobial susceptibility testing: "Lab Guidelines & Standards," Aug 459
Anti-platelet antibodies: immune thrombocytopenic purpura due to, June 337
Anti-Sm antibody: in systemic lupus erythematosus, July 411
Antithyroglobulin autoantibody: tumor markers in thyroid carcinoma with pulmonary metastases after thyroidectomy, Jan 30
Anti-Xa assay: laboratory monitoring of heparin therapy, partial thromboplastin time or?, Jan 47
Apolipoprotein B: dyslipidemia analysis in nephrotic syndrome by capillary isotachophoresis, Sept 544
Apoptosis: *Patrinia heterophylla* Bunge polysaccharide inhibits HeLa cell proliferation through cell Kyle arrest and, March 161; peroxisome proliferator-activated receptor <gamma> agonist rosiglitazone inhibits HL-60 cell growth by induction of, May 297; small interfering RNA modulates, May 286
Appendicitis, acute: IL-6-174G/C promoter polymorphism in, Oct 600
Arboviruses, April 237
Argatroban: simple tool to educate laboratory staff about anticoagulation, Nov 689
Arthritis, rheumatoid: response of cartilage oligomeric matrix protein to monoclonal antibody drugs in patients with, Nov 645
Aspartate aminotransferase (AST): and exercise's effect on tick bite laboratory evaluation in humans, Feb 96; in periodontal disease diagnosis, May 277
Atherosclerosis: ABO blood group and development of, Sept 529; sCD40, sCD40L, TNF<alpha>, and TNF-RI levels in culprit artery during myocardial infarction, Nov 660
Autoantibodies: quantitation of, in eluate of sensitized red cells in warm autoimmune hemolytic anemia, Sept 531
Autoimmune disorders: elevated levels of soluble and neutrophil CD146 in active systemic vasculitis, June 351; immune dysregulation, polyendocrinopathy, enteropathy, X-linked syndrome, May 303; immune thrombocytopenic purpura due to anti-platelet antibodies, June 337; opsoclonus-myoclonus syndrome, June 335; quantitation of autoantibodies in eluate of sensitized red cells in warm autoimmune hemolytic anemia, Sept 531; systemic lupus erythema-tosus risk factors, July 408
Automation: laboratory robots for transport and delivery of blood products, Sept 517; and necessity of repeating critical values in the laboratory, Aug 454; optimization of criteria for verification of platelet counts generated by Sysmex XE-2100 hematology analyzer, Sept 535; red cell cytograms generated by ADVIA 120 hematology analyzer, Sept 549, Nov 693(letter); for stem cell viability evaluation, Sept 557; Sysmex SP1000i for automated bone marrow slide smear staining, Dec 719

B

Bacteremia: *agr* specificity groups among *Staphylococcus aureus* associated with, Jan 27, 28
Bacteria: *Abbreviated Identification of Bacteria and Yeast; Approved Guideline—Second Edition*, April 213; *agr* specificity groups among *Staphylococcus aureus* isolates from university hospitals in Tehran, Jan 27; distribution of CTX-M <beta>-lactamase genes among *Escherichia coli* strains isolated from patients in Iran, Dec 724; limited utility of bone marrow culture for, Jan 37
Baron, Ellen Jo: on rapid methods for organisms identification, April 213, 214
Basophil count: reference ranges for umbilical cord blood hematological values, July 437; Sysmex XT-2000i hematology analyzer performance with whole bloods stored at room temperature, Dec 710
Bax: *Patrinia heterophylla* Bunge polysaccharide's effect on expression of, March 164
Bcl-2 oncoprotein: *Patrinia heterophylla* Bunge polysaccharide's effect on expression of, March 164
Bence-Jones protein, March 181, June 326, 341
Bilateral inferior petrosal sinus sampling for ACTH: Excel spreadsheets for creating interpretive reports for, Jan 10
Bilirubin: in alcoholic liver cirrhosis associated with hepatorenal syndrome, May 274
Billing: compliance, July 428
Biological variations: association analysis of, in different routinely measured biochemical parameters in healthy subjects, Aug 474; impact on response of cartilage oligomeric matrix protein to monoclonal antibody drugs in patients with rheumatoid arthritis, Nov 645
Biomarkers: cartilage oligomeric matrix protein for with rheumatoid arthritis, Nov 646; elevated levels of soluble and neutrophil CD146 in active systemic vasculitis, June 351; enzymatic profile of gingival crevicular fluid in association with periodontal status, May 277; placental growth

factor in acute coronary syndrome patients with non ST-elevation, Nov 675. *See also* Cardiac markers; Tumor markers
Birdsong, George: on Papanicolaou testing guideline, March 144
Bla$_{CTX-M}$ genes: distribution of CTX-M <beta>-lactamase genes among *Escherichia coli* strains isolated from patients in Iran, Dec 724
Blood: and recent advances in detection of prostate cancer United using epigenetic markers in commonly collected laboratory samples, March 173. *See also* Blood banking; Coagulation; Cord blood, umbilical; Hematology analyzers; Hemolysis; Phlebotomy; Platelets; Transfusion medicine
Blood banking: current state of medical laboratory staffing with certified versus noncertified personnel, April 198; laboratory robots for transport and delivery of blood products, Sept 517; umbilical cord blood, Sept 557; wage and vacancy survey for 2008, March 138, 139
Blood Gas and pH Analysis and Related Measurements; Approved Guideline—Second Edition, Sept 526
Blood gases: "Lab Guidelines & Standards," Sept 526
Blood products: laboratory robots for transport and delivery of, Sept 517
Blood urea nitrogen (BUN): in alcoholic liver cirrhosis associated with hepatorenal syndrome, May 274
Bone cancer: tumor markers for, Feb 99
Bone marrow: limited utility of culture, a ten-year retrospective analysis, Jan 37; in malaria diagnosis, Oct 589; Sysmex SP1000i for automated slide smear staining, Dec 719
Branched DNA viral load assays: false positive results in diagnosis of perinatal HIV-infection, Oct 611
Breast cancer: filariasis of the breast mimicking inflammatory carcinoma, Nov 683; tumor markers for, Feb 99, 100
Brewster, Sir David: "Luminaries," Sept 563
Brucella: limited utility of bone marrow culture for, Jan 37
Brugia malayi, Nov 683
Bunyaviridae, April 237
Bunyaviruses, April 237

C

CA 15-3: as tumor marker, Feb 99, 100
CA 19-9: as tumor marker, Feb 99, 101; tumor markers in thyroid carcinoma with pulmonary metastases after thyroidectomy, Jan 30
CA 27.29: as tumor marker, Feb 99, 100
CA 72-4: tumor markers in thyroid carcinoma with pulmonary metastases after thyroidectomy, Jan 30
CA 125: as ovarian cancer tumor marker, Feb 99, 101; tumor markers in thyroid carcinoma with pulmonary metastases after thyroidectomy, Jan 30
Calcium: phosphate buffered saline containing magnesium and, elicits increased secretion of interleukin-1 receptor antagonist, May 290
Calcofluor white: staining *Cryptosporidium* oocytes with fluorescent brighteners Uvitex 2B and, April 219
Calculations, complex: Excel spreadsheets for creating interpretive reports for tests requiring, Jan 5
California encephalitis virus, April 240
Cancer: formaldehyde carcinogenicity, Dec 740; *Patrinia heterophylla* Bunge polysaccharide inhibits HeLa cell proliferation through apoptosis and cell cycle arrest, March 161. *See also* Breast cancer; Carcinoma; Colorectal cancer; Lung cancer; Neoplasm metastasis; Prostate cancer; Tumor markers
Carbon dioxide: necessity of repeating critical values in the laboratory, Aug 454
Carbonic anhydrase III: biomarkers of myocardial infarction in patients undergoing gastrointestinal cancer surgery, Feb 91
Carcinoembryonic antigen (CEA): as breast and colorectal cancer tumor marker, Feb 99, 100, 101; tumor markers in thyroid carcinoma with pulmonary metastases after thyroidectomy, Jan 30
Carcinogenicity: and pragmatic approach to formalin safety in anatomical pathology, Dec 740
Carcinoma: acinar cell, pancreatic, July 424; colorectal, evaluation in specimens from endoscopic biopsies, Oct 617; filariasis of the breast mimicking inflammatory, Nov 683; increased expression of early B-cell factor 3 in human hepatocellular carcinoma and the effect of EBF3 overexpression on HepG2 cell cycling, Jan 39; malignant mixed Müllerian tumor as metaplastic, July 401; single disseminated tumor cell detection in peripheral blood sample of patients with oral squamous cell, using MAGE-A4, Nov 665; tumor markers in thyroid carcinoma with pulmonary metastases after thyroidectomy, Jan 30
Cardiac markers: comparison of 99th percentile and 10% coefficient of variation cutoff values for four commercially available troponin I assays, Aug 470; of myocardial infarction in patients undergoing gastrointestinal cancer surgery, Feb 91. *See also* Cardiac troponin I
Cardiac troponin I: biomarkers of myocardial infarction in patients undergoing gastrointestinal cancer surgery, Feb 91; clinical comparison of 99th percentile and 10% coefficient of variation cutoff values for four commercially available assays for, Aug 470
Cartilage oligomeric matrix protein: response to monoclonal antibody drugs in patients with rheumatoid arthritis, Nov 645
Case studies: alcoholic liver cirrhosis associated with hepatorenal syndrome, May 274; anti-Cr^a, Oct 593; double aneuploidy (Down syndrome and Klinefelter syndrome), April 215; human choricnic gonadotropin, Aug 463; hyperosmotic hyperglycemic state, July 405; immune thrombocytopenic purpura due to anti-platelet antibodies, June 337; leukoagglutination, March 159; malaria, Oct 589; opsoclonus-myoclonus syndrome, June 331; prostate cancer screening, Aug 466
Castellani, William J: on instrument implementation, verification, and maintenance guideline, Oct 587
Catalona vs. Washington University, Feb 71
CD40: serum levels in culprit artery during myocardial infarction, Nov 660
CD146: elevated levels of soluble and neutrophil, in active systemic vasculitis, June 351
Cell adhesion molecules: elevated levels of soluble and neutrophil CD146 in active systemic vasculitis, June 351
Cell cycle: increased expression of early B-cell factor 3 in human hepatocellular carcinoma and the effect of EBF3 overexpression on HepG2 cell cycling, Jan; *Patrinia heterophylla* Bunge polysaccharide inhibits HeLa cell proliferation through apoptosis and arrest of, March 161
Cell line: expression inhibition of HnRNP B1 in lung cell line A549 by interfering RNA, May 283
Cell-of-Origin (COO) Classification: and B-cell lymphoma with intermediate- to high-grade features and different immunophenotypic profiles involving separate anatomic sites with good response to R-CHOP, Feb 84
Central nervous system (CNS): arbovirus and bunyavirus overview, April 237
Cerebrospinal fluid (CSF): Excel spreadsheets for creating interpretive reports on indices, Jan 6; in opsoclonus-myoclonus syndrome, June 331, 333
Certification: current state of medical laboratory staffing with certified versus noncertified personnel, April 197; and standard protocol for introduction of new testing into clinical laboratory, July 391; and wage and vacancy survey for 2008, March 138
Cervicovaginal Cytology Based on the Papanicolaou Technique; Approved Guideline—Third Edition, March 144
Charity Care Policy, July 433
Chemistry: association analysis of biological variations in different routinely measured biochemical parameters in healthy subjects, Aug 474; Excel spreadsheets for creating interpretive reports for tests requiring complex calculations, Jan 5; Otto Folin, Jan 54; Robert Guthrie, Dec 748; Henry Bence Jones, March 181; laboratory monitoring of heparin therapy, partial thromboplastin time or anti-Xa assay?, Jan 47; Arne Tiselius, Oct 627; visualizing multi-analytical clinical data via simple patterns, Jan 15
Chest pain: in atrial myxoma patients, Oct 597
Children: with supravalvular aortic stenosis, fluorescent in situ hybridization, psychological and psychiatric studies of, Aug 482. *See also* Infants
Chinese medicine: antiadenovirus activities of cinnamaldehyde in vitro, Nov 669
Christie, Douglas: on standardizing platelet function testing by aggregometry, May 269, 270
Chromatography: Tiselius' work on, Oct 628
Chromosome rearrangements: screening for cytogenetic and molecular, in Tunisian children with conotruncal heart defects, June 357
Chudasama, Yashwant: on volunteering, March 149
Chymotrypsin: in determination of uric acid level in seminal plasma, Jan 24, 25
Cinnamaldehyde: antiadenovirus activities of, in vitro, Nov 669
Cinnamomum cassia Presl: antiadenovirus activities of cinnamaldehyde in vitro, Nov 669
Cirrhosis of the liver. *See* Liver cirrhosis
Clinical and Laboratory Standards Institute (CLSI): *Abbreviated Identification of Bacteria and Yeast; Approved Guideline—Second Edition,* April 213; *Analysis and Presentation of Cumulative Antimicrobial Susceptibility Test Data; Approved Guideline—Third Edition,* Aug 459; *Analytical Performance Characteristics and Clinical Utility of Immunological Assays for Human Immunoglobulin E (IgE) Antibodies and Defined Allergen Specificities; Approved Guideline—Second Edition,* July 395; *Blood Gas and pH Analysis and Related Measurements; Approved Guideline—Second Edition,* Sept 526; *Cervicovaginal Cytology Based on the Papanicolaou Technique; Approved Guideline—Third Edition,* March 144; *Defining, Establishing, and Verifying Reference Intervals in the Clinical Laboratory; Approved Guideline—Third Edition,* Feb 75; *Laboratory Instrument, Verification, and Maintenance; Approved Guideline,* Oct 587; *Newborn Screening for Preterm, Low Birth Weight, and Sick Newborns; Approved*

Guideline, Nov 653; *Platelet Function Testing by Aggregometry; Approved Guideline*, May 269; volunteering in, March 146
Clinical Laboratory Improvement Amendments of 1988 (CLIA '88): rapid HIV testing requirements of, Oct 584; and standard protocol for introduction of new testing into clinical laboratory, July 391
Coagulation: profile for cryoprecipitate produced from 24-hour stored whole blood, Sept 540. *See also* Anticoagulants; Von Willebrand disease
Cold agglutinins: and red cell cytograms generated by ADVIA 120 automated hematology analyzer, Sept 552
Colorado tick fever: arbovirus and bunyavirus virus overview, April 237
Colorectal cancer: carcinoma, evaluation in specimens from endoscopic biopsies, Oct 617; tumor markers for, Feb 99, 101
Competency: for rapid HIV testing in rural laboratories, Oct 584; for standard protocol for introduction of new testing into clinical laboratory, July 391
Complete blood count: Sysmex XT-2000i hematology analyzer performance with whole bloods stored at room temperature, Dec 710
Compliance: in billing, July 428
Compliance Program Guidance for Clinical Laboratories (1998), July 428
Computerized Patient Record System (Department of Veterans' Affairs), Sept 520
Computers: Excel spreadsheets for creating interpretive reports for tests requiring complex calculations, Jan 5. *See also* Laboratory information systems (LIS)
Consensus, March 147
Consult/order system, electronic, Sept 520
"Continuing Education Update" series: arbovirus and bunyavirus virus overview, April 237; colorectal carcinoma in specimens from endoscopic biopsies, Oct 617; compliance, July 428; *Flaviviridae* overview with emphasis on Japanese encephalitis group viruses, Aug 493; formalin safety in anatomical pathology, Dec 740; hemoglobin A_{1c} standardization, June 368; immune dysregulation, polyendocrinopathy, enteropathy, X-linked syndrome, May 303; laboratory monitoring of heparin therapy, partial thromboplastin time or anti-Xa assay?, Jan 47; pancreatic pathology, July 417; prostate-specific antigen measurement, Aug 487; recent advances in detection of prostate cancer using epigenetic markers in commonly collected laboratory samples, March 171; red cell cytograms generated by ADVIA 120 automated hematology analyzer, Sept 549, Nov 693(letter); reference ranges for umbilical cord blood hematological values, July 437; serum free light chain analysis for diagnosis, monitoring, and prognosis of monoclonal gammopathies, June 363; simple tool to educate laboratory staff about anticoagulation, Nov 687; tumor markers' clinical utility, Feb 99; umbilical cord blood for stem cell transplantation, Sept 557; the which, why, and what to do of clinical laboratory tests, Feb 105
Continuous glucose monitoring, Oct 607
Cooler system: for blood product storage and transfer, Sept 518
Cord blood, umbilical: reference ranges for hematological values in, July 437, Oct 629(letters); for stem cell transplantation, Sept 557
Coronary artery disease: ABO blood group and, Sept 528
Cortisol: Excel spreadsheets for creating interpretive reports for adrenal vein sampling for aldosterone and, Jan 8
Cost-benefit analysis: standard protocol for introduction of new testing into clinical laboratory, July 390
Cost effectiveness: of HIV testing in rural clinic laboratories, Oct 581
CpG sites: recent advances in detection of prostate cancer using epigenetic markers in commonly collected laboratory samples, March 172
CPT coding. *See* Current Procedural Terminology (CPT) codes
Creatine kinase: and exercise's effect on tick bite laboratory evaluation in humans, Feb 96; necessity of repeating critical values in the laboratory, Aug 454
Creatine kinase, MB isoenzyme of (CK-MB): biomarkers of myocardial infarction in patients undergoing gastrointestinal cancer surgery, Feb 91
Creatinine: in alcoholic liver cirrhosis associated with hepatorenal syndrome, May 274; necessity of repeating critical values in the laboratory, Aug 454
Crimean-Congo hemorrhagic fever, Feb 96
Critical difference: between consecutive test results, Feb 112
Critical values: necessity of repeating in the laboratory, Aug 453
Cromer locus: in anti-Cr^a, Oct 593
Cryoprecipitate: produced from 24-hour stored whole blood, coagulation profile for, Sept 540
Cryopreservation: of umbilical cord blood, Sept 557
Cryptosporidium: staining oocytes with fluorescent brighteners Uvitex 2B and calcofluor white, April 219
CTX-M <beta>-lactamase genes: distribution among *Escherichia coli* strains isolated from patients in Iran, Dec 724
Culex species: filariasis nematodes transmitted by, Nov 683; *Flaviviridae* transmitted by, Aug 495, 496, 497
Current Procedural Terminology (CPT) codes: billing compliance, July 429, 432; coding in dermatopathology, March 151
Customer service, Nov 651, Dec 708
Cutoff values: in troponin I assay comparison, Aug 470
Cyfra 21-1: tumor markers in thyroid carcinoma with pulmonary metastases after thyroidectomy, Jan 30
Cystadenocarcinoma: serous, pancreatic, July 421
Cysts: CPT coding in dermatopathology, March 152; pancreatic, July 420
Cytochrome P450 genes, May 262
Cytogenetics: and B-cell lymphoma with intermediate- to high-grade features and different immunophenotypic profiles involving separate anatomic sites with good response to R-CHOP, Feb 85
Cytograms: red cell, generated by ADVIA 120 automated hematology analyzer, Sept 549, Nov 693(letter)
Cytokines: interleukin-6 as appendicitis marker, Oct 600; sCD40, sCD40L, TNF<alpha>, and TNF-RI levels in culprit artery during myocardial infarction, Nov 660
Cytology teaser, Nov 643
Cytopathology: "Media Review," Jan 60; George N. Papanicolaou, April 245
Cytosine-phosphodiester-guanine hypermethylation: recent advances in detection of prostate cancer United using epigenetic markers in commonly collected laboratory samples, March 171
Cytotechnology: current state of medical laboratory staffing with certified versus noncertified personnel, April 198; wage and vacancy survey for 2008, March 137, 139
CytoTox-Glo Cytotoxicity assay, Sept 557

D

"Dancing eyes, dancing feet" disorder, June 331
Data visualization: visualizing multi-analytical clinical chemistry data via simple patterns, Jan 15
Decay-accelerating factor, Oct 593
Deep excision with/without tumor: CPT coding in dermatopathology, March 153
Defining, Establishing, and Verifying Reference Intervals in the Clinical Laboratory; Approved Guideline—Third Edition, Feb 75
Dermatopathology: CPT coding in, March 151
Desmopressin acetate: for von Willebrand disease treatment, May 273
Diabetes: comparative testing for better glycemic control, Aug 478; hemoglobin A_{1c} standardization, June 368; less invasive technology to monitor blood glucose levels in patients with, Oct 607
Diabetic ketoacidosis: hyperosmotic hyperglycemic state distinguished from, July 406
Diabetic nephropathies: serum protein fingerprinting model in diagnosis of type 2, June 345
Diagnostics, molecular. *See* Molecular diagnostics
Differential count: Sysmex XT-2000i hematology analyzer performance with whole bloods stored at room temperature, Dec 710
Direct antiglobulin test: and quantitation of autoantibodies in eluate of sensitized red cells in, Sept 531
Distal airways obstruction: microfluidics, lung surfactant, and respiratory disorders, April 204
DNA methylation: recent advances in detection of prostate cancer using epigenetic markers in commonly collected laboratory samples, March 172
Documentation: for rapid HIV testing in rural laboratories, Oct 584; for standard protocol for introduction of new testing into clinical laboratory, July 391
D'Orazio, Paul: on blood gas, pH, and related measurements guideline, Sept 526
Down syndrome: double trisomy 48, XXY, +21 with phenotypic features of, April 215
Drug resistance: *agr* specificity groups among *Staphylococcus aureus* isolates, Jan 27, 28
Dual deficiency anemia: and red cell cytograms generated by ADVIA 120 automated hematology analyzer, Sept 551
Dyscrasia, plasma cell, June 379
Dyslipidemia: analysis in nephrotic syndrome by capillary isotachophoresis, Sept 544
Dyspnea: in atrial myxoma patients, Oct 597

E

Early B-cell factor 3: increased expression of, in human hepatocellular carcinoma, and the effect of EBF3 overexpression on HepG2 cell cycling, Jan 39
Early notification values: necessity of repeating in the laboratory, Aug 454
Eastern equine encephalitis: arbovirus and bunyavirus virus overview, April 237
EBF3-EGFP fusion protein, Jan 39
EDTA. *See* Ethylenediaminetetraacetic acid (EDTA)
Education, continuing. *See* "Continuing Education Update" series
Efficiency: as performance characteristic of laboratory tests, Feb 109

Ejaculation: as source of proteinuria regardless of presence or absence of sperm in semen, May 294
Electrophoresis: "Luminaries," Oct 627; in monoclonal gammopathy diagnosis, June 326, 341
Emergency department: rapid HIV testing for health-care-provider needlesticks in, Oct 582
Endocarditis: *agr* specificity groups among *Staphylococcus aureus* associated with, Jan 27, 28
Endocrine disorders: "Media Review," Sept 566. *See also* Endocrine tumors
Endocrine tumors: pancreatic, July 423; tumor markers for, Feb 99
Endoscopic biopsies: evaluation of colorectal carcinoma in specimens from, Oct 617
Enoxaparin: simple tool to educate laboratory staff about anticoagulation, Nov 688
Enterococcus faecium: limited utility of bone marrow culture for, Jan 37
Enteropathy: in immune dysregulation, polyendocrinopathy, enteropathy, X-linked syndrome, May 303
Enzyme-linked immunosorbent assay (ELISA): for cartilage oligomeric matrix protein, Nov 646
Eosinophil count: reference ranges for umbilical cord blood hematological values, July 437; Sysmex XT-2000i hematology analyzer performance with whole bloods stored at room temperature, Dec 710
Epigenetic markers: for detection of prostate cancer using commonly collected laboratory samples, March 171
Erythrocytes. *See* Red blood cells (RBCs)
Escherichia coli: distribution of CTX-M <beta>-lactamase genes among strains isolated from patients in Iran, Dec 724
Estrogen receptors: as breast cancer tumor marker, Feb 99, 101
Ethics: and ownership of diagnostic tissue blocks, Feb 72
Ethylenediaminetetraacetic acid (EDTA): in leukoagglutination, March 159
Excel spreadsheets: for creating interpretive reports for tests requiring complex calculations, Jan 5
Exercise: effect on tick bite laboratory evaluation in humans, Feb 96
Exfoliative syndromes, generalized: *agr* specificity groups among *Staphylococcus aureus* associated with, Jan 27
Exhaled gases: for measuring blood glucose levels, Oct 609
Extended-spectrum <beta>-lactamases: distribution of CTX-M <beta>-lactamase genes among *Escherichia coli* strains isolated from patients in Iran, Dec 724

F

Factor VIII: coagulation profile for cryoprecipitate produced from 24-hour stored whole blood, Sept 540
Fallopian tube: malignant mixed Müllerian tumor of, in patient with irregular vaginal bleeding, July 401
False Claim Act, July 428, 433
Fatty acid-binding protein: biomarkers of myocardial infarction in patients undergoing gastrointestinal cancer surgery, Feb 91
"Features": ASCP wage and vacancy survey of U.S. medical laboratories, March 133; Excel spreadsheets for creating interpretive reports for tests requiring complex calculations, Jan 5; genomics revolution's role in pharmaceutics, May 261; introducing HIV testing into rural laboratories cost effectively, Oct 581; laboratory robots for transport and delivery of blood products, Sept 517; microfluidics, lung surfactant, and respiratory disorders, April 203; repeating critical values in the laboratory, Aug 453; response of cartilage oligomeric matrix protein to monoclonal antibody drugs in patients with rheumatoid arthritis, Nov 645; serum free light chain analysis when screening for lymphoproliferative disorders, June 325; standard protocol for introduction of new testing into clinical laboratory, July 389; Sysmex XT-2000i hematology analyzer performance with whole bloods stored at room temperature, Dec 709; who owns diagnostic tissue blocks?, Feb 69
Febrile illness, acute: in malaria, Oct 589
Fibrinogen: coagulation profile for cryoprecipitate produced from 24-hour stored whole blood, Sept 540
Filariasis: of the breast mimicking inflammatory carcinoma, Nov 683
5 Rights of Laboratory Testing, July 394
Flaviviridae, April 237; overview with emphasis on Japanese encephalitis group viruses, Aug 493
Flavivirus, Aug 493
Flow cytometry: Neubauer hemacytometer, SY conventional, SY located, and automated flow cytometer F–100 methods for urinalysis, April 227
Fluorescence in situ hybridization (FISH): B-cell lymphoma with intermediate- to high-grade features and different immunophenotypic profiles involving separate anatomic sites with good response to R-CHOP, Feb 79; screening for cytogenetic and molecular chromosome rearrangements in Tunisian children with conotruncal heart defects, June 357; for supravalvular aortic stenosis, Aug 482
Fluorescent optical brighteners: staining *Cryptosporidium* oocytes with Uvitex 2B and calcofluor white, April 219
Folate: light's effect on vitamin B12 and, Nov 657
Folic acid: and genotype prevalence and allele frequencies of 5,10-methylenetetrahydrofolate reductase C677T and A1298C polymorphisms in Italian newborns, Dec 732
Folin, Otto: "Luminaries," Jan 54
Follicle-stimulating hormone (FSH): and mildly elevated levels of human chorionic gonadotropin, Aug 463; and undetectable prostate-specific antigen, Aug 467
Food and Drug Administration (FDA): and standard protocol for introduction of new testing into clinical laboratory, July 391
Formaldehyde: pragmatic approach to formalin safety in anatomical pathology, Dec 740
Formalin: pragmatic approach to safety in anatomical pathology, Dec 740
FOXP3 (forkhead box protein 3) gene: in immune dysregulation, polyendocrinopathy, enteropathy, X-linked syndrome, May 303
Fraudulent billing practices, July 428
Free light chains, serum. *See* Serum free light chains
Free prostate-specific antigen testing, Aug 487
Free thyroxine index (FT4): visualizing multi-analytical clinical chemistry data via simple patterns, Jan 15
Free triiodothyronine index (FT3): visualizing multi-analytical clinical chemistry data via simple patterns, Jan 15
Frozen sections: in pancreatic pathology, July 418
Fungi. *See* Mycology

G

Galactosemia: visualizing multi-analytical clinical chemistry data via simple patterns, Jan 16
Gastritis: *Helicobacter pylori* genotype in stool specimens of asymptomatic people, July 412
Gastrointestinal cancer: biomarkers of myocardial infarction in patients undergoing surgery for, Feb 91; tumor markers for, Feb 99
Gaussian error propagation equation, Aug 489
Gel technology: "WRNAS," June 376
Genes: nomenclature for, March 171
Genetic disorders: immune dysregulation, polyendocrinopathy, enteropathy, X-linked syndrome compared with, May 303
Genomics: role in pharmaceutics, May 261
Genotyping: of *Helicobacter pylori,* July 412; phosphodiesterase 4D (PDE4D) gene variants and risk of ischemic stroke in Taiwanese population, Feb 87
Gingival crevicular fluid: enzymatic profile of, in association with periodontal status, May 277
Glo-Max CytoTox-Glo procedure, Sept 557
Gloves: as formalin permeable, Dec 743
Glucose: comparative testing for better glycemic control, Aug 478; less invasive technology to monitor levels in patients with diabetes, Oct 607; necessity of repeating critical values in the laboratory, Aug 454
Glutathione S-transferase pi (GSTP1) gene: in recent advances in detection of prostate cancer United using epigenetic markers in commonly collected laboratory samples, March 172
Glycated hemoglobin. *See* Hemoglobin A_{1c}
Glycemic control: comparative testing for better, Aug 478
Glycogen phosphorylase isoenzyme BB (GPBB): biomarkers of myocardial infarction in patients undergoing gastrointestinal cancer surgery, Feb 91
Greenberg vs. Miami Children's Hospital Research Center, Feb 71
Gross specimen teaser, Feb 94, March 131, April 208, 230, May 259, June 344, 361, July 387, 407, Aug 451, Sept 515, Oct 624, Nov 668
Guardianship: ownership contrasted with, Feb 70
Guthrie, Robert: "Luminaries," Dec 748

H

Hamilton, Robert G: on immunoglobulin E assay guideline, July 395
Hannon, W Harry: on volunteering, March 147
Hazardous materials: pragmatic approach to formalin safety in anatomical pathology, Dec 740
Heart: ABO blood group and coronary artery diseases, Sept 528; atrial myxoma, Oct 596; fluorescent in situ hybridization, psychological and psychiatric studies in children with supravalvular aortic stenosis, Aug 482. *See also* Acute coronary syndrome; Cardiac markers; Myocardial infarction, acute
Heart defects, conotruncal: screening for cytogenetic and molecular chromosome rearrangements in Tunisian children with, June 357
HeLa cells: *Patrinia heterophylla* Bunge polysaccharide inhibits proliferation through apoptosis and cell cycle arrest, March 161
Helicobacter pylori: genotype in stool specimens of asymptomatic people, July 412
Hematocrit: reference ranges for umbilical cord blood hematological values, July 437; Sysmex XT-2000i hematology analyzer performance with whole bloods stored at room temperature, Dec 710
Hematology analyzers: optimization of criteria for verification of automated platelet counts generated by Sysmex XE-2100, Sept 535; red cell cytograms generated by ADVIA 120,

Sept 549, Nov 693(letter); Sysmex SP1000i for automated bone marrow slide smear staining, Dec 719; Sysmex XT-2000i performance with whole bloods stored at room temperature, Dec 709
Hematopoietic neoplasms: acute myeloid leukemia with myelodysplasia-related changes, July 397
Hemoglobin: Sysmex XT-2000i hematology analyzer performance with whole bloods stored at room temperature, Dec 710. *See also* Hemoglobin A_{1c}; Hemoglobin E disease
Hemoglobin A_{1c}: falsely elevated values with Primus Diagnostics *Ultra* HPLC, May 308(letter); and less invasive technology to monitor blood glucose levels in patients with diabetes, Oct 607; standardization of measurement of, June 368
Hemoglobin E disease, May 311
Hemoglobulin: reference ranges for umbilical cord blood hematological values, July 437
Hemolysis: changes of serum lactate dehydrogenase and potassium levels produced by pneumatic tube systems, Dec 728; factitious hyperkalemia in hemolytic samples, April 224
Hepacivirus, Aug 493
Heparin: partial thromboplastin time or anti-Xa assay for laboratory monitoring of, Jan 47; simple tool to educate laboratory staff about anticoagulation, Nov 688
Hepatitis C virus: correlations of serum virus RNA and alanine transaminase with liver histopathological changes in patients with chronic hepatitis C, March 167
Hepatorenal syndrome: alcoholic liver cirrhosis associated with, May 274
HepG2 cell cycling: increased expression of early B-cell factor 3 in human hepatocellular carcinoma and the effect of EBF3 overexpression on, Jan
HER-2: as breast cancer tumor marker, Feb 99, 101
Heterogeneous nuclear ribonucleoproteins: expression inhibition of HnRNP B1 in lung cell line A549 by interfering RNA, May 283
Hindler, Janet: on antimicrobial susceptibility testing guideline, Aug 460
Histology teaser, Jan 3, Feb 67, April 195, June 323, July 435, Oct 579, Dec 707
Histotechnology: current state of medical laboratory staffing with certified versus noncertified personnel, April 198; formaldehyde hypersensitivity in technicians, Dec 741; "Media Review," Oct 631; wage and vacancy survey for 2008, March 137, 139
HL-60 cells: peroxisome proliferator-activated receptor <gamma> agonist rosiglitazone inhibits cell growth by induction of apoptosis, May 297
Hoeltge, Gerald A: on instrument implementation, verification, and maintenance guideline, Oct 587
"Home brew" tests: and billing compliance, July 432
Homocysteine: and genotype prevalence and allele frequencies of 5,10-methylenetetrahydrofolate reductase C677T and A1298C polymorphisms in Italian newborns, Dec 732
Homovanillic acid: in opsoclonus-myoclonus syndrome, June 332
Horn, Paul S: on reference intervals guideline, Feb 75, 76
Horowitz, Gary L: on reference intervals guideline, Feb 75, 76
Human chorionic gonadotropin (HCG): mild positive results in perimenopausal female, Aug 463
Human immunodeficiency viruses (HIV): false positive ultrasensitive HIV bDNA viral load results in diagnosis of perinatal HIV-infection in era of low transmission, Oct 611; introducing cost effective HIV testing into rural clinic laboratories, Oct 581
Husain, Mujtaba: on Papanicolaou testing guideline, March 144
Hyperaldosteronism: Excel spreadsheets for creating interpretive reports for adrenal vein sampling for aldosterone and cortisol, Jan 8
Hyperhomocysteinemia: and genotype prevalence and allele frequencies of 5,10-methylenetetrahydrofolate reductase C677T and A1298C polymorphisms in Italian newborns, Dec 732
Hyperkalemia: factitious, in hemolytic samples, April 224
Hyperlipidemia: dyslipidemia analysis in nephrotic syndrome by capillary isotachophoresis, Sept 544
Hyperlipoproteinemia: visualizing multi-analytical clinical chemistry data via simple patterns, Jan 17
Hyperosmotic hyperglycemic state, July 405; "Test Your Knowledge," Sept 568
Hyperparathyroidism: Excel spreadsheets for creating interpretive reports for testing for parathyroid hormone, Jan 9
Hypersensitivity: to formaldehyde, Dec 741
Hyperthroidism: visualizing multi-analytical clinical chemistry data via simple patterns, Jan 15
Hyponatremia: with alcoholic liver cirrhosis associated with hepatorenal syndrome, May 274
Hypothesis deduction: in establishing diagnosis based on laboratory test results, Feb 107

I

ICD-9 codes: billing compliance, July 431
Immune dysregulation, polyendocrinopathy, enteropathy, X-linked syndrome, May 303
Immune system: immune dysregulation, polyendocrinopathy, enteropathy, X-linked syndrome, May 303
Immune thrombocytopenic purpura: due to antiplatelet antibodies, June 337
Immunofixation electrophoresis: in monoclonal gammopathy diagnosis, June 326
Immunoglobulin E (IgE): guideline for assay performance, July 395
Immunoglobulin G (IgG): and quantitation of autoantibodies in eluate of sensitized red cells in, Sept 531
Immunoglobulin M (IgM): in immunological response following Japanese encephalitis group virus exposure, Aug 498
Immunoglobulins: serum free light chain analysis when screening for lymphoproliferative disorders, June 326
Immunohistochemistry: in evaluation of colorectal carcinoma in specimens from endoscopic biopsies, Oct 618, 621
Immunophenotyping: B-cell lymphoma with intermediate- to high-grade features and different immunophenotypic profiles involving separate anatomic sites with good response to R-CHOP, Feb 79
Infants: false positive ultrasensitive HIV bDNA viral load results in diagnosis of perinatal HIV-infection in era of low transmission, Oct 611. *See also* Neonates
Infectious agents: *agr* specificity groups among *Staphylococcus aureus* isolates from university hospitals in Tehran, Jan 27; arbovirus and bunyavirus virus overview, April 237; distribution of CTX-M <beta>-lactamase genes among *Escherichia coli* strains isolated from patients in Iran, Dec 724; limited utility of bone marrow culture for, Jan 37. *See also* Bacteria; Mycology; Protozoans; Virology
Inflammation: filariasis of the breast mimicking inflammatory carcinoma, Nov 683; sCD40, sCD40L, TNF<alpha>, and TNF-RI levels in culprit artery during myocardial infarction, Nov 660
Infliximab: response of cartilage oligomeric matrix protein to, in patients with rheumatoid arthritis, Nov 646, 649
Information technology: visualizing multi-analytical clinical chemistry data via simple patterns, Jan 15. *See also* Computers
Institutional review boards: and ownership of diagnostic tissue blocks, Feb 72
Instrumentation: comparative testing for better glycemic control, Aug 478; comparing Neubauer hemacytometer, SY conventional, SY located, and automated flow cytometer F–100 methods for urinalysis, April 227; comparison of 99th percentile and 10% coefficient of variation cutoff values for four commercially available troponin I assays, Aug 470; comparison of two commercial ADAMTS13 activity assays with reference laboratory method, April 232; false positive ultrasensitive HIV bDNA viral load results in diagnosis of perinatal HIV-infection in era of low transmission, Oct 611; "Lab Guidelines & Standards," Oct 587; less invasive technology to monitor blood glucose levels in patients with diabetes, Oct 607. *See also* Hematology analyzers
Interferon <gamma>: serial release assay in latent tuberculosis infection, Nov 681
Interleukin-1 receptor antagonist: phosphate buffered saline containing calcium and magnesium elicits increased secretion of, May 290
Interleukin-6 (IL-6): as appendicitis marker, Oct 600
International normalized ratio (INR): simple tool to educate laboratory staff about anticoagulation, Nov 687
International Prognostic Index (IPI): and B-cell lymphoma with intermediate- to high-grade features and different immunophenotypic profiles involving separate anatomic sites with good response to R-CHOP, Feb 84
International sensitivity index (ISI): simple tool to educate laboratory staff about anticoagulation, Nov 688
Intraepithelial neoplasia: pancreatic, July 417
Intra-individual variation: between consecutive test results, Feb 112
Intraoperative parathyroid hormone testing: Excel spreadsheets for creating interpretive reports for, Jan 9
In Vitro Diagnostic Multivariate Index Assays, July 432
Iontophoresis: for monitoring blood glucose levels, Oct 609
Iron deficiency anemia: red cell cytograms generated by ADVIA 120 automated hematology analyzer, Sept 550
Ischemia: phosphodiesterase 4D (PDE4D) gene variants and risk of ischemic stroke in Taiwanese population, Feb 87
ISO 9000, May 267
Isotachophoresis, capillary: dyslipidemia analysis in nephrotic syndrome by, Sept 544

J

Jablonski, Alexander: "Luminaries," Nov 694
Jamestown Canyon virus, April 240
Japanese encephalitis group viruses: *Flaviviridae* overview with emphasis on, Aug 493, 495
Jenkins, Stephen: on antimicrobial susceptibility testing guideline, Aug 459, 461

Johnson, Judith: on antimicrobial susceptibility testing guideline, Aug 460, 461
Jones, Henry Bence: "Luminaries," March 181
Jorgensen, James H: on volunteering, March 148

K
Kaleidoscope, Sept 563
Kallikrein: prostate-specific antigen as sensitive to, Aug 487
Kallner, Anders: on volunteering, March 149
Karotyping: B-cell lymphoma with intermediate- to high-grade features and different immunophenotypic profiles involving separate anatomic sites with good response to R-CHOP, Feb 79
Ki-67: and B-cell lymphoma with intermediate- to high-grade features and different immunophenotypic profiles involving separate anatomic sites with good response to R-CHOP, Feb 80, 85
Kidneys: alcoholic liver cirrhosis associated with hepatorenal syndrome, May 274; dyslipidemia analysis in nephrotic syndrome by capillary isotachophoresis, Sept 544; inaccuracies in 24-hour urine testing for monoclonal gammopathies, June 341; serum protein fingerprinting model in diagnosis of type 2 diabetic nephropathy, June 345
Klinefelter syndrome: double aneuploidy (Down syndrome and), April 215

L
"Lab Guidelines & Standards": antimicrobial susceptibility testing, Aug 459; blood gas and pH analysis, Sept 526; immunoglobulin E (IgE) assay performance, July 395; instrument implementation, verification, and maintenance, Oct 587; newborn screening in preterm, low birth weight, and sick babies, Nov 653; Papanicolaou testing, March 144; rapid methods for organism identification, April 213; reference intervals, Feb 75; standardization of platelet function testing by aggregometry, May 269
Laboratory assistants: current state of medical laboratory staffing with certified versus noncertified personnel, April 198; wage and vacancy survey for 2008, March 137, 139
Laboratory developed testing. *See* "Home brew" tests
Laboratory information systems (LIS): and necessity of repeating critical values in the laboratory, Aug 454; standard protocol for introduction of new testing into clinical laboratory, July 390; Sysmex SP1000i system links with, Dec 719

Phlebotomy: changes of serum lactate dehydrogenase and potassium levels produced by pneumatic tube systems, Dec 728; current state of medical laboratory staffing with certified versus noncertified personnel, April 198; "Media Review," March 187; questionable blood draws, Sept 565(letter); wage and vacancy survey for 2008, March 138, 139
Phosphate buffered saline solution: containing calcium and magnesium elicits increased secretion of interleukin-1 receptor antagonist, May 290
Phosphodiesterase 4D (PDE4D): gene variants and risk of ischemic stroke in Taiwanese population, Feb 87
Placental growth factor: in acute coronary syndrome patients with non ST-elevation, Nov 675
Plan-do-check-act (PDCA) method, March 142
Plasmodium falciparum: malaria caused by, Oct 589
Platelet count: optimization of criteria for verification of automated counts generated by Sysmex XE-2100 hematology analyzer, Sept 535; reference ranges for umbilical cord blood hematological values, July 437; Sysmex XT-2000i hematology analyzer performance with whole bloods stored at room temperature, Dec 710
Platelet function testing: by aggregometry, May 269
Platelet Function Testing by Aggregometry: Approved Guideline, May 269
Platelets: in immune thrombocytopenic purpura due to anti-platelet antibodies, June 337; necessity of repeating critical values in the laboratory, Aug 454. *See also* Platelet count; Platelet function testing
Pneumatic tube systems: changes of serum lactate dehydrogenase and potassium levels produced by, Dec 728
Point-of-care (POC) tests: comparative testing for better glycemic control, Aug 478
Polyendocrinopathy: in immune dysregulation, polyendocrinopathy, enteropathy, X-linked syndrome, May 303
Polymerase chain reaction (PCR): development of, July 441; for human immunodeficiency viruses detection, Oct 611; increased expression of early B-cell factor 3 in human hepatocellular carcinoma and the effect of EBF3 overexpression on HepG2 cell cycling, Jan 39
Polymerase chain reaction–based restriction fragment length polymorphism: and identification of type III collagen gene polymorphism rs1800255 with high resolution melting analysis, Oct 604
Polysaccharides: from *Patrinia heterophylla* Bunge inhibits HeLa cell proliferation through apoptosis and cell Kyle arrest, March 161
Positive predictive value: as performance characteristic of laboratory tests, Feb 109
Post-analytic phase: in "laboratory testing cycle," Feb 105
Potassium: changes of serum lactate dehydrogenase levels and, produced by pneumatic tube systems, Dec 728; in evaluation of factitious hyperkalemia in hemolytic samples, April 224; necessity of repeating critical values in the laboratory, Aug 454
Powassan encephalitis: arbovirus and bunya virus overview, April 237
Pre-analytic phase: in "laboratory testing cycle," Feb 105
Pregnancy: and human chorionic gonadotropin, Aug 463
Prevalence: as performance characteristic of laboratory tests, Feb 109
Preventive measures: pragmatic approach to formalin safety in anatomical pathology, Dec 741
Process mapping, Feb 74
Proficiency testing: for rapid HIV testing in rural laboratories, Oct 585; for standard protocol for introduction of new testing into clinical laboratory, July 391
Progesterone receptors: as breast cancer tumor marker, Feb 99, 101
Project Lab Scam, July 428
Promoter polymorphism: IL-6-174G/C, in acute appendicitis, Oct 600
Prostate cancer: clinical significance of measuring prostate-specific antigen, Aug 487; recent advances in detecting using epigenetic markers in commonly collected laboratory samples, March 171; screening for, Aug 466, 490; tumor markers for, Feb 99, 101
Prostate-specific antigen (PSA): clinical significance of measuring, Aug 487; as prostate cancer tumor marker, Feb 99, 101; and recent advances in detection of prostate cancer using epigenetic markers in commonly collected laboratory samples, March 171; undetectable, in absence of prior prostatectomy, Aug 466
Proteinuria: ejaculation as source of, regardless of presence or absence of sperm in semen, May 294
Proteomics: systemic lupus erythematosus risk factors detected by, July 408
Prothrombin time (PT): simple tool to educate laboratory staff about anticoagulation, Nov 687
Protozoans: malaria caused by *Plasmodium falciparum*, Oct 589; staining *Cryptosporidium* oocytes with fluorescent brighteners Uvitex 2B and calcofluor white, April 219
Pseudocysts: pancreatic, July 421
Pulsatile microcirculation: for monitoring blood glucose levels, Oct 608

Q

"Q&A": "WRNAS," June 376
Quality: CLSI volunteer projects in, March 150; quality control, quality assurance, and quality management system distinguished, Aug 458; Quality Qorner, Jan 13, Feb 74, March 142, April 210, May 267, June 330, July 394, Aug 458, Sept 525, Oct 586, Nov 651, Dec 708; seven deadly sins of quality management, Sept 525; seven more deadly sins of quality management, Oct 586; SIPOC (Supplier—Input—Process—Output—Customer), Dec 708; and standardization for the determination of uric acid level in seminal plasma, Jan 23
"Quality Management Ladder to Success," June 330
Quality System Essentials (QSEs), Jan 13, May 267, Sept 525

R

Rapid HIV testing: in rural clinic laboratories, Oct 582
Ratio of baseline drift, Aug 474
R-CHOP: B-cell lymphoma with intermediate- to high-grade features and different immunophenotypic profiles involving separate anatomic sites with good response to, Feb 79
Receiver-operator characteristic curves, Feb 110
Records: of paraffin-embedded diagnostic tissue blocks, Feb 70
Recovery Audit Contractor program, July 433
Recycling: of formalin, Dec 745
Red blood cells (RBCs): in anti-Cr^a, Oct 593; comparison of Neubauer hemacytometer, SY conventional, SY located, and automated flow cytometer F–100 methods for urinalysis, April 227; cytograms generated by ADVIA 120 automated hematology analyzer, Sept 549, Nov 693(letter); quantitation of autoantibodies in eluate of sensitized red cells in warm autoimmune hemolytic anemia, Sept 531; reference ranges for umbilical cord blood hematological values, July 437; Sysmex XT-2000i hematology analyzer performance with whole bloods stored at room temperature, Dec 710
Red cell distribution width: reference ranges for umbilical cord blood hematological values, July 437
Red Flag Program, July 433
Reference change value: for cartilage oligomeric matrix protein, Nov 646, 648
Reference intervals: for interpreting laboratory test results, Feb 111; "Lab Guidelines & Standards," Feb 75; for umbilical cord blood hematological values, July 437
Reference laboratories: and billing compliance, July 430
Reimbursement: billing compliance, July 428
Reoviridae, April 237
Reports: Excel spreadsheets for creating interpretive reports for tests requiring complex calculations, Jan 5
"Reports": CPT coding in dermatopathology, March 151; current state of medical laboratory staffing with certified versus noncertified personnel, April 197; structured approach to organizational redesign, Dec 737; volunteering, March 146
Research: and ownership of diagnostic tissue blocks, Feb 71
Respiratory disorders: microfluidics, lung surfactant, and, April 203
Restriction fragment length polymorphism, polymerase chain reaction–based: and identification of type III collagen gene polymorphism rs1800255 with high resolution melting analysis, Oct 604
Reticulocyte count: Sysmex XT-2000i hematology analyzer performance with whole bloods stored at room temperature, Dec 710
Retirement: wage and vacancy survey for 2008, March 140
Revised International Prognostic Index (R-IPI): and B-cell lymphoma with intermediate- to high-grade features and different immunophenotypic profiles involving separate anatomic sites with good response to R-CHOP, Feb 84
Rifle versus shotgun approach: in establishing diagnosis based on laboratory test results, Feb 107, 108
Risk management: CLSI volunteer project in, March 150
RNA interference: expression inhibition of HnRNP B1 in lung cell line A549 by, May 283
Robots: for transport and delivery of blood products, Sept 517
Rosiglitazone: inhibits HL-60 cell growth by induction of apoptosis, May 297
Rounds: acute myeloid leukemia with myelodysplasia-related changes, July 397; B-cell lymphoma with intermediate- to high-grade features and different immunophenotypic profiles involving separate anatomic sites with good response to R-CHOP, Feb 79; chronic myelomonocytic leukemia transforming into acute myelogenous leukemia, Jan 19; filariasis of the breast

mimicking inflammatory carcinoma, Nov 683; malignant mixed Müllerian tumor of the fallopian tube in patient with irregular vaginal bleeding, July 401; serial interferon gamma release assay in latent tuberculosis infection, Nov 681
Rural laboratories: introducing cost effective HIV testing into, Oct 581

S

Safety: pragmatic approach to formalin safety in anatomical pathology, Dec 740
St. Louis encephalitis: arbovirus and bunyavirus virus overview, April 237; *Flaviviridae* overview with emphasis on Japanese encephalitis group viruses, Aug 493, 496
Salaries: wage and vacancy survey for 2008, March 133
Saline solution, phosphate buffered: containing calcium and magnesium elicits increased secretion of interleukin-1 receptor antagonist, May 290
Salmonella: limited utility of bone marrow culture for, Jan 37
Schiffgens, Jennifer: on instrument implementation, verification, and maintenance guideline, Oct 587
Schmaier, Alvin: on standardizing platelet function testing by aggregometry, May 269, 270
Science: ABO blood group and coronary artery diseases, Sept 528; *agr* specificity groups among *Staphylococcus aureus* isolates from university hospitals in Tehran, Jan 27; antiadenovirus activities of cinnamaldehyde in vitro, Nov 669; association analysis of biological variations in different routinely measured biochemical parameters in healthy subjects, Aug 474; atrial myxoma, Oct 596; biomarkers of myocardial infarction in patients undergoing gastrointestinal cancer surgery, Feb 91; changes of serum lactate dehydrogenase and potassium levels produced by pneumatic tube systems, Dec 728; coagulation profile for cryoprecipitate produced from 24-hour stored whole blood, Sept 540; comparative testing for better glycemic control, Aug 478; comparison of 99th percentile and 10% coefficient of variation cutoff values for four commercially available troponin I assays, Aug 470; comparison of two commercial ADAMTS13 activity assays with reference laboratory method, April 232; correlations of serum hepatitis C virus RNA and alanine transaminase with liver histopathological changes in patients with chronic hepatitis C, March 167; CTX-M <beta>-lactamase gene distribution among *Escherichia coli* strains isolated from patients in Iran, Dec 724; dyslipidemia analysis in nephrotic syndrome by capillary isotachophoresis, Sept 544; ejaculation as source of proteinuria regardless of presence or absence of sperm in semen, May 294; elevated levels of soluble and neutrophil CD146 in active systemic vasculitis, June 351; enzymatic profile of gingival crevicular fluid in association with periodontal status, May 277; exercise's effect on tick bite laboratory evaluation in humans, Feb 96; expression inhibition of HnRNP B1 in lung cell line A549 by interfering RNA, May 283; factitious hyperkalemia in hemolytic samples, April 224; false positive ultrasensitive HIV bDNA viral load results in diagnosis of perinatal HIV-infection in era of low transmission, Oct 611; fluorescent in situ hybridization, psychological and psychiatric studies in children with supravalvular aortic stenosis, Aug 482; *Helicobacter pylori* genotype in stool specimens of asymptomatic people, July 412; IL-6-174G/C promoter polymorphism in acute appendicitis, Oct 600; inaccuracies in 24-hour urine testing for monoclonal gammopathies, June 341; increased expression of early B-cell factor 3 in human hepatocellular carcinoma and the effect of EBF3 overexpression on HepG2 cell cycling, Jan 39; less invasive technology to monitor blood glucose levels in patients with diabetes, Oct 607; light's effect on vitamin B12 and folate, Nov 657; limited utility of bone marrow culture, Jan 37; Neubauer hemacytometer, SY conventional, SY located, and automated flow cytometer F–100 methods for urinalysis, April 227; optimization of criteria for verification of automated platelet counts generated by Sysmex XE-2100 hematology analyzer, Sept 535; *Patrinia heterophylla* Bunge polysaccharide inhibits HeLa cell proliferation through apoptosis and cell cycle arrest, March 161; peroxisome proliferator-activated receptor <gamma> agonist rosiglitazone inhibits HL-60 cell growth by induction of apoptosis, May 297; phosphate buffered saline containing calcium and magnesium elicits increased secretion of interleukin-1 receptor antagonist, May 290; phosphodiesterase 4D (PDE4D) gene variants and risk of ischemic stroke in Taiwanese population, Feb 87; placental growth factor in acute coronary syndrome patients with non ST-elevation, Nov 675; quantitation of autoantibodies in eluate of sensitized red cells in warm autoimmune hemolytic anemia, Sept 531; reliable identification of type III collagen gene polymorphism rs1800255 with high resolution melting analysis, Oct 604; sCD40, sCD40L, TNF<alpha>, and TNF-RI levels in culprit artery during myocardial infarction, Nov 660; screening for cytogenetic and molecular chromosome rearrangements in Tunisian children with conotruncal heart defects, June 357; serum protein fingerprinting model in diagnosis of type 2 diabetic nephropathy, June 345; single disseminated tumor cell detection in peripheral blood sample of patients with oral squamous cell carcinoma using MAGE-A4, Nov 665; staining *Cryptosporidium* oocytes with fluorescent brighteners Uvitex 2B and calcofluor white, April 219; standardization and quality control for the determination of uric acid level in seminal plasma, Jan 23; Sysmex SP1000i for automated bone marrow slide smear staining, Dec 719; systemic lupus erythematosus risk factors, July 408; tumor markers in thyroid carcinoma with pulmonary metastases after thyroidectomy, Jan 30
Screening: for cytogenetic and molecular chromosome rearrangements in Tunisian children with conotruncal heart defects, June 357; "Lab Guidelines & Standards" for neonatal, Nov 653; for lymphoproliferative disorders, June 325; for phenylketonuria, Dec 748; for prostate cancer, Aug 466, 490
Scurfy: immune dysregulation, polyendocrinopathy, enteropathy, X-linked syndrome compared with, May 303
Semen: ejaculation as source of proteinuria regardless of presence or absence of sperm in, May 294; standardization and quality control for the determination of uric acid level in seminal plasma, Jan 23
Sensitivity: as performance characteristic of laboratory tests, Feb 109
Serous tumors: pancreatic, July 421
Serum free light chains: assays for quantification of, Excel spreadsheets for creating interpretive reports for, Jan 10; for lymphoproliferative disorder screening, June 325; for monoclonal gammopathy diagnosis, monitoring, and prognosis, June 363; provides more accurate measure of light chain burden than urine protein electrophoresis, June 341
Small interfering RNA technique, May 283
Snowshoe hare virus, April 240
Sodium citrate: for leukoagglutination avoidance, March 160
Solid pseudopapillary tumor: pancreatic, July 424
Speaking: seven deadly sins of, Oct 586
Specificity: as performance characteristic of laboratory tests, Feb 109
Specimens: changes of serum lactate dehydrogenase and potassium levels produced by pneumatic tube systems, Dec 728; light's effect on vitamin B12 and folate, Nov 657; SIPOC approach to handling and processing, Dec 708
Spectroscopy, fluorescence: "Luminaries," Nov 694
Spermatozoa: ejaculation as source of proteinuria regardless of presence or absence of, May 294; standardization for the determination of uric acid level in seminal plasma, Jan 23
Spherocytosis: and red cell cytograms generated by ADVIA 120 automated hematology analyzer, Sept 552
Spreadsheets: for creating interpretive reports for tests requiring complex calculations, Jan 5
"Square procedure": CPT coding in dermatopathology, March 155
Staffing: with certified versus noncertified personnel, April 197; wage and vacancy survey for 2008, March 133
Standardization: of hemoglobin A_{1c} measurement, June 368; of platelet function testing by aggregometry, May 269; protocol for introduction of new testing into clinical laboratory, July 389; and quality control for the determination of uric acid level in seminal plasma, Jan 23
Staphylococcus aureus: agr specificity groups among isolates from university hospitals in Tehran, Jan 27
Stelling, John: on antimicrobial susceptibility testing guideline, Aug 459, 460
Stem cell transplantation: thawed umbilical cord blood for, Sept 557
Stereoscope, Sept 563
Strategic planning: structured approach to organizational redesign, Dec 737
Stroke: phosphodiesterase 4D (PDE4D) gene variants and risk of ischemic, in Taiwanese population, Feb 87
Structural conflict, Dec 738
Structural tension diagrams, Dec 737
ST-segment elevation: placental growth factor in acute coronary syndrome patients without, Nov 675
Sum of sensitivity and specificity: as performance characteristic of laboratory tests, Feb 109
Supravalvular aortic stenosis: fluorescent in situ hybridization, psychological and psychiatric studies in children with, Aug 482
Surface-enhanced laser desorption/ionization time-of-flight mass spectrometry: in diabetic nephropathy diagnosis, June 345
SY system: Neubauer hemacytometer, SY conventional, SY located, and automated flow cytometer F–100 methods compared for urinalysis, April 227

T

T cells: in immunological response following Japanese encephalitis group virus exposure, Aug 498; regulatory, in immune dysregulation, polyendocrinopathy, enteropathy, X-linked syndrome, May 303
Test ordering: questions to ask before, Feb 106
Testosterone: and undetectable prostate-specific antigen, Aug 467
Test volume: standard protocol for introduction of new testing into clinical laboratory, July 390
"Test Your Knowledge": albumin in urine, March 183; congenital dyserythropoietic anemia, Feb 117; hemoglobin E disease, May 311; hyperosmotic hyperglycemic state, Sept 568; ischemia-modified albumin, Jan 56; leishmaniasis, Nov 696; monoclonal gammopathies, June 379; neurodegenerative diseases, Dec 750; plasma cell dyscrasia, June 379; plasma cell leukemia, April 247; von Willebrand factor, July 443
<beta>-Thalassemia: and red cell cytograms generated by ADVIA 120 automated hematology analyzer, Sept 550
Therapeutic range: validating PTT, Jan 50
Thiopurine S-methyltransferase: pharmacogenetics of, May 263
Thrombocytopenia: heparin-induced, Nov 688; immune thrombocytopenic purpura due to anti-platelet antibodies, June 337
Thrombotic thrombocytopenic purpura: comparison of two commercial ADAMTS13 activity assays with reference laboratory method, April 232
Thyroglobulin: tumor markers in thyroid carcinoma with pulmonary metastases after thyroidectomy, Jan 30
Thyroid: tumor markers in thyroid carcinoma with pulmonary metastases after thyroidectomy, Jan 30
Ticks: exercise's effect on tick bite laboratory evaluation in humans, Feb 96
Tiselius, Arne: "Luminaries," Oct 627
Tissue: who owns diagnostic tissue blocks?, Feb 69
Toffaletti, John: on blood gas, pH, and related measurements guideline, Sept 526
Togaviridae, April 237
Tomography, optical coherence: for monitoring blood glucose levels, Oct 608
Total prostate-specific antigen testing, Aug 487
Training: for rapid HIV testing in rural laboratories, Oct 584; for standard protocol for introduction of new testing into clinical laboratory, July 391
Transfusion medicine: and red cell cytograms generated by ADVIA 120 automated hematology analyzer, Sept 552; reference ranges for umbilical cord blood hematological values, July 437; "WRNAS," June 376
Trisomy: double aneuploidy (Down syndrome and Klinefelter syndrome), April 215
Troponin I. *See* Cardiac troponin I
Trypan blue exclusion test, Sept 558
Tuberculosis: serial interferon gamma release assay in latent infection, Nov 681
Tuerck, Judi: on newborn screening guideline, Nov 654
Tumor budding: in colorectal carcinoma, Oct 621
Tumor markers: clinical utility of, Feb 99; recent advances in detection of prostate cancer United using epigenetic markers in commonly collected laboratory samples, March 171; in thyroid carcinoma with pulmonary metastases after thyroidectomy, Jan 30
Tumor necrosis factor (TNF): levels in culprit artery during myocardial infarction, Nov 660
Turcot syndrome: and colorectal carcinoma in specimens from endoscopic biopsies, Oct 621, 622
Turnaround time: and changes of serum lactate dehydrogenase and potassium levels produced by pneumatic tube systems, Dec 728
Turnover: wage and vacancy survey for 2008, March 140
2-site immunoassays: false-positives for human chorionic gonadotropin with, Aug 463
Type III collagen gene: reliable identification of polymorphism rs1800255, with high resolution melting analysis, Oct 604

U

Ulcers, peptic: *Helicobacter pylori* genotype in stool specimens of asymptomatic people, July 412
Umbilical cord blood. *See* Cord blood, umbilical
Uric acid: in seminal plasma, standardization and quality control for the determination of, Jan 23
Urinalysis: comparison of Neubauer hemacytometer, SY conventional, SY located, and automated flow cytometer F–100 methods for, April 227
Urine: ejaculation as source of proteinuria regardless of presence or absence of sperm in semen, May 294; and recent advances in detection of prostate cancer United using epigenetic markers in commonly collected laboratory samples, March 173; "Test Your Knowledge," March 183. *See also* Urinalysis; Urine protein electrophoresis
Urine protein electrophoresis: in monoclonal gammopathy diagnosis, June 326, 341
Uvitex 2B: staining *Cryptosporidium* oocytes with fluorescent brighteners calcofluor white and, April 219

V

Vaginal bleeding: malignant mixed Müllerian tumor of the fallopian tube in patient with irregular, July 401
Valentine, Christina: on newborn screening guideline, Nov 653, 654
Vanillylmandelic acid: in opsoclonus-myoclonus syndrome, June 332
Vasculitis, active systemic: elevated levels of soluble and neutrophil CD146 in, June 351
Vendors: in standard protocol for introduction of new testing into clinical laboratory, July 390
Venous sampling for parathyroid hormone: selective, Excel spreadsheets for creating interpretive reports for, Jan 9
Virology: antiadenovirus activities of cinnamaldehyde in vitro, Nov 669; arbovirus and bunyavirus virus overview, April 237; correlations of serum virus RNA and alanine transaminase with liver histopathological changes in patients with chronic hepatitis C, March 167; exercise's effect on tick bite laboratory evaluation in humans, Feb 96; *Flaviviridae* overview with emphasis on Japanese encephalitis group viruses, Aug 493; limited utility of bone marrow culture for viruses, Jan 37. *See also* Human immunodeficiency viruses (HIV)
Vitamin B12: light's effect on folate and, Nov 657
Volunteering, March 146
Von Willebrand disease: adolescent with history of menorrhagia, May 271; "Test Your Knowledge," July 443
Von Willebrand factor: coagulation profile for cryoprecipitate produced from 24-hour stored whole blood, Sept 540; comparison of two commercial ADAMTS13 activity assays with reference laboratory method, April 232; "Test Your Knowledge," July 443; in von Willebrand disease, May 271

W

Waived tests: and standard protocol for introduction of new testing into clinical laboratory, July 391
Warfarin: pharmacogenetics of, May 264; simple tool to educate laboratory staff about anticoagulation, Nov 688
Warm autoimmune hemolytic anemia: quantitation of autoantibodies in eluate of sensitized red cells in, Sept 531
Webster, Dianne: on newborn screening guideline, Nov 654
Weibel-Palade bodies: in von Willebrand disease, May 271, 273
Western blot analysis: increased expression of early B-cell factor 3 in human hepatocellular carcinoma and the effect of EBF3 overexpression on HepG2 cell cycling, Jan 40
Western equine encephalitis: arbovirus and bunyavirus virus overview, April 237
West Nile virus: *Flaviviridae* overview with emphasis on Japanese encephalitis group viruses, Aug 493, 496
White blood cell (WBC) count: reference ranges for umbilical cord blood hematological values, July 437; Sysmex XT-2000i hematology analyzer performance with whole bloods stored at room temperature, Dec 710
White blood cells (WBCs): comparison of Neubauer hemacytometer, SY conventional, SY located, and automated flow cytometer F–100 methods for urinalysis, April 227. *See also* White blood cell (WBC) count
Wide skin excision: CPT coding in dermatopathology, March 153
Williams-Beuren syndrome: supravalvular aortic stenosis in, Aug 482
Workflow: laboratory's path of, Nov 651
World Volunteer Web, March 147
"WRNAS," June 376
Wuchereria bancrofti, Nov 683

X

X-linked recessive disorders: immune dysregulation, polyendocrinopathy, enteropathy, X-linked syndrome, May 303

Y

Yeast: *Abbreviated Identification of Bacteria and Yeast; Approved Guideline—Second Edition*, April 213
Yellow fever: virus in transmission of, Aug 493
York, Mary K: on rapid methods for organisms identification, April 213, 214
